1. The first step in the process of creating a new product is to identify a market need. This involves conducting market research to understand the preferences and behaviors of potential customers.

2. Once a market need is identified, the next step is to develop a concept for the product. This involves brainstorming ideas and creating a rough sketch of the product.

3. The third step is to create a prototype. This is a physical model of the product that allows the designer to test and refine the design.

4. After the prototype is created, the next step is to conduct a feasibility study. This involves evaluating the technical, financial, and market viability of the product.

5. If the feasibility study is positive, the next step is to develop a business plan. This document outlines the marketing, financial, and operational strategies for the product.

6. The final step is to launch the product. This involves manufacturing the product, distributing it, and promoting it to the target market.

THIS JUST IN!

*J. Ponder's
Comic
Talk*

THIS IS IT! THE ULTIMATE BATTLE BEGINS NEXT ISSUE!

Whatever you do, do not miss **SONIC #47!** "End Game," the four-part series within a series, begins the roller-coaster ride into **SONIC'S 50th anniversary issue The King of Acorns** is healthy once more and wants to finish off the war against Robotnik once and for all. He will stop at nothing to regain the kingdom! The stakes are higher than they've ever been before. Before this issue is over, nothing will ever be the same again! On sale early March 1997!

Also in two weeks: **KNUCKLES: THE DARK LEGION #2 (OF 3)** It's not that easy being the "Guardian of The Floating Island." Just ask Knuckles. Of course, he's a little detained at the moment. He's fighting off this nasty group of Enerjak's disciples calling themselves "The Dark Legion!" What do they want? Not much... just the Chaos Emerald and The Floating Island! And if they can't have it, **NO ONE CAN!!!** Including never before scenes of The Echidnas' history! The second in the triple-combo cover collection. Check it out! On sale late February 1997!

Last but not least, an up-coming 48-page special of "mammoth" proportions! "KnucklesQuest" is over but the saga of the **Sword of Acorns** is not. Mammoth Mogul wants it. He wants it bad. Devising a plan that will keep Knuckles and The Chaptix from delivering the sword to Princess Sally and The Freedom Fighters, isn't that much of a problem when you know what their weaknesses are. That's what being a villain is all about. It is a tale we could only call "**SONIC VS. KNUCKLES: BATTLE ROYAL!!!**" On sale in late April 1997

P.S.: The writers would like to thank Ron Bauerle for his reference help this issue.

SPECIAL NOTE: SONIC WRITER/ARTIST Ken Penders will be making an appearance at the Motor City ComicCon in Detroit, MI between March 21 to 23!

Dear Sonic,

I think you are the best Freedom Fighter for the job of commander now that SONIC #40 is out (don't tell Antoine I said that). My collection now includes every Sonic comic since issue #21 (including specials and mini-series). I have a few questions: 1) Is Sally 14 or 15 years old? 2) Will the power stones ever be used in the comic? 3) Who painted the "Robotnik Rules" pin-up in MECHA MADNESS Special #17?

Jacob "Dr. J" Ritter
Columbus, NE

What's happening, Dr. J? As you see, too much is happening around here. My head is spinning almost as fast as my feet. As far as Antoine goes, since when have I ever told him any-

thing. Now on to questions: 1) Here's the age line up for the core group of Freedom Fighters once and for all: Sonic (15), Sally (15), Bunnie (14), Antoine (18 - yeah, he's older... and he's still a dork), Rotor (16), Tails (10). Get it? Got it! Good! 2) Maybe. 3) Rich Koslowski painted that masterpiece. Glad you liked it.

Dear Sonic,

You, what's up? I really like you ... you're cool! I think you're really brave since all this mecha/martial stuff has been happening to you. I know you'll survive it. Question time: 1) What's up with Knuckles? Does he drink too much coffee? 2) Is Antoine jealous of Sonic or what? 3) Where did he come from? 4) How did Tails get two tails?

Brandon Hutchinson
Cumberland City, TN

My man, Brandon thinks I'm cool. He's right, you know. Answer time: 1) He is way, way uptight for his own good. I'm glad you noticed, too. 2) Who isn't? 3) Check out my 611eth issue for the answer to that one. 4) Why does the sun rise in the morning? Who knows? I don't. All I know is he was born that way just like I was born to juice speed-wheel.

Sonic-Grams gang,

Highly-Ho, good Freedom-Fighting neighbors! The other day, I updated my recently-started collection of "SONIC THE HEDGEHOG" comics. As I was going through my issues, I noticed #39 was missing. Being sort of a traveler, especially near the end of the month, I usually pick up the latest issue. Of course, this time around I got #40 instead. Did I miss a special issue or something? Help.

Jesse "The Traveler" Shearer
Sioux Falls, SD

In a nut shell, Sonic #39 had yours truly fall into the hands of Nack the Weasel who in turn sold me to Robotnik. He had me robotized to destroy Knothole village. He almost won, too, but Princess Sally had a better idea. In MECHA MADNESS #1, she had Knuckles robotized to stop me... and it worked. We were both de-robotized but neither of us were very happy. Both issues were beautifully drawn by our cover artist, SPAZ! Look at the last page to see how to order. Now that's the way a 30-second commercial should sound!

Hey Sonic-Grams,

I'd like to say that I think the comics are great! Keep up the good work! My favorite characters are Bunnie and Amy Rose. Question: Is there going to be a story about how Tails joined up with The Freedom Fighters soon? I hope so. Have fun. Stay cool. (And watch Snively he's planning something!) Come and explore the web sometime!

Kate O'Neil
smoneil@pcis.com

Thank! Hey, how come I'm not part of your list of favorites. Well, Bunnie and Amy are cool, especially Amy since she's a hedgehog, too. We don't have a Tails origin slated for print yet but we will one day soon.

Having fun and staying cool are easy. Tell me to do something that's really hard to do (except clean Robotnik's shoes). As far as your Snively warning... is that foreshadowing or what? Hasta' later, dudes!
